Cagayan de Oro College | College of Information Technology Education
CAPSTONE / RESEARCH 1
60% SYSTEM DEVELOPMENT COMPLETION CHECKLIST
Student / Group: _____
Project Title: _____
Adviser: _____
Date Evaluated: _____

A. ENHANCED USER MANAGEMENT MODULE (10 POINTS)

No.	Functional Requirement	✓	Points
1	User roles fully integrated across all modules	☐	2
2	Dynamic user permissions enforced in workflows	☐	2
3	User profile management (view/update) functional	☐	2
4	Account status control (activate/deactivate) implemented	☐	2
5	Session timeout and user activity tracking implemented	☐	2
SUBTOTAL _____ / 10			

B. EXPANDED CORE FUNCTIONAL MODULE (25 POINTS)

No.	Functional Requirement	✓	Points
6	All major system modules are developed (not partial)	☐	5
7	Complete workflows across modules are operational	☐	5
8	Complex business logic implemented (beyond basic CRUD)	☐	5
9	System handles multiple transactions correctly	☐	3
10	Data flow between modules is seamless and consistent	☐	3
11	Edge cases and alternative flows handled	☐	2
12	No redundant or unused features in the system	☐	2
SUBTOTAL _____ / 25			

C. ADVANCED DATABASE IMPLEMENTATION (10 POINTS)

No.	Functional Requirement	✓	Points
13	Database design supports full system requirements	☐	2
14	Complex relationships (1:M, M:N) implemented correctly	☐	2
15	Transactions and data consistency properly handled	☐	2
16	Data validation enforced at database and backend levels	☐	2
17	Database supports real-time system operations	☐	2
SUBTOTAL _____ / 10			

D. SYSTEM ARCHITECTURE & MODULE INTEGRATION (10 POINTS)

No.	Functional Requirement	✓	Points
18	System architecture reflects actual implementation	☐	2
19	Frontend, backend, and database fully connected	☐	2
20	APIs / controllers properly handling requests	☐	2
21	Modular structure (separation of concerns) applied	☐	2
22	Navigation across modules is seamless and logical	☐	2
SUBTOTAL _____ / 10			

E. INTERFACE FUNCTIONALITY & USER INTERACTION (5 POINTS)

No.	Functional Requirement	✓	Points
23	All forms fully functional and connected to backend	☐	1
24	Dynamic content updates (no static-only pages)	☐	1
25	System provides correct feedback for user actions	☐	1
26	Error handling integrated within user workflows	☐	1

27	Interface supports actual system operations (not demo-only)	☐	1
SUBTOTAL _____ / 5			

SUMMARY OF SCORES

Category	**Maximum Points**	**Score**
User Management	10	____
Core Functional Module	25	____
Database Implementation	10	____
Architecture & Integration	10	____
Interface Functionality	5	____
TOTAL	**60**	____

ADVISER CERTIFICATION

☐ I certify that the group has completed at least **sixty percent (60%) of the functional system development requirements** as verified through live demonstration.

Signature : _____

Date: _____
